Attachments: RE: S48 - clarification on notes - Bracknell Close

Afternoon Sir,

Please see the e-mail below from Liz Parsons from the IPCC requesting a statement from you to assist with their independent investigation into the fatal shooting of Jermaine Baker.

I would be grateful if you could scan an electronic copy of the completed statement to me and put the original in the internal post for my attention at ESB, Floor 22.

I will then pass this on to the IPCC in person.

Please feel free to contact me if you require further clarification.

Many thanks.

Rob

Subject: IPCC Bracknell Close - MG11 S48

Ryan/Rob,

Please can this email be passed directly to [redacted] S48

[redacted] S48,

Firstly thank you for clarifying your handwritten notes via Ryan Golding earlier this week.

As you are aware I do need a further statement from you, I understand that via communications with Ryan Golding (email attached) that you do not want to provide a statement with me face to face; below are some questions which if explained in full detail may negate the need for me to come back to you with further questions - however given I do not know what you are going to say it is difficult for me to be specific but I will endeavour to do so. This is not an ideal way of doing things and as you are probably aware given your extensive police background, and as an Inspector, is not a very conducive way to obtain witness evidence and is not a normal process. This process is not viewed as co-operation by the IPCC and comment is likely to be made as such in the final report.

Nevertheless I am hopeful that you will supply sufficient detail in any MG11 produced for this to be resolved quite promptly. I would respectfully ask that narrative responses are provided as opposed to single word or very short answers.

Please note - your completed statement should be passed only to the MPS overarching SPOC at DPS - DS Rob McPhee (copied in above) who will then disseminate it to me, as this is an independent IPCC investigation (criminal and misconduct). Any requests you may receive
