Importance: High

Sirs
I have amended Q 8 following yesterday's meeting with Mr Justice Sweeney as shown below. Spoke with S48
- and this is feasible, he will amend the Tac Ad accordingly.
If you are happy I will ask this to go through Mr Ball's office.

FE16

Should at any stage surveillance control be lost on the Audi or the subjects planning this offence, an additional contingency of an overt armed police presence on the van is included within the firearms operational plan and will be utilised.
Should the van reach the Wood Green area, and the subjects have not intercepted, the overt police presence will move forward and will escort the van to the Court.
In addition a further overt armed unit will be ahead and waiting and will deploy outside the front door of the court, prior to the van arriving. This will mitigate any potential threat from suspects running en masse through the Court Security. This has been discussed with the Firearms Tactical Adviser and we have sufficient resources to deploy this further control measure, thereby maximising the safety of all court users.
