INFORMATION / INTELLIGENCE

Therefore this is an application for an armed surveillance operation to be conducted by officers from SCO35 armed for self protection supported by covert SFO officers providing Mobile Armed Support To Surveillance (MAST).

Two separate deployments will be conducted.

A : The Audi A6 KM13YPT

B: The Serco van (TBC) transporting Izzet EREN and GYAMPFI to court.

Authority is also sought for the deployment of overt ARVs as a contingency for the Serco van, should there be insufficient control of the subjects planning this offence and for a limited number of covert armed officers to be at Wood Green Court as a further contingency when Izzet EREN is there.

Unarmed surveillance will also be conducted on Ozcan EREN, should he be controlling matters from a distance. It is unknown whether he will be in the actual team on the day.

Command Structure:

SFC: DSU FE14
TFC Central 3000 Control FE16
Tfc Audi : FE1
Tfc Serco Van : FE17
Tac Adv: S48
SIO DI Rob Murray
Case Officer DC Gary Kinch

4.2

OPTIONS & TACTICS CONSIDERED BY TFC

4.2.5

Tactic

Overt Disruption

Rationale

For: Should there be lack of control of the Audi or the subjects and intelligence suggests that the attempt is still taking place we have the additional contingency of deploying over assets around the Serco van.

Whilst no approach has been made to Serco staff at this stage due to potential compromise issues, we would have the option of speaking to the custodians and advising them not to exit the vehicle at any time.

Against : May frustrate evidential opportunities, however this is not the primary objective

Decision & Parameters

Accepted as a contingency
