Andy

We are going forward with the this application (Tracking) but after speaking with the TSU I will need a briefing sheet around the proposed operation to include the operational plan, the supporting intelligence and what authorities you would like to apply for. This is to be put before AC Gallan to see if she is willing in principle to support the operation as planned because of the risks involved. I suggest that this prepared by SIO as he may be required to present to the AC.

Kim Overall | MPS Central Authorities Unit & RIPA Gatekeeper Manager
