All,

In the last 15 mins (whilst currently at [REDACTED] **Sensitive**) - I've just had a chat with Chris Davies re the job and he is happy with our plan etc and the unarmed Surv Team and reasons behind it etc.

Any more issues - speak with me.

Rob

No problem

Although this is a large scale operation. It is in affect a MAST. We have run numerous MASTS on this job, none have been subject to separate risk assessments. Its been assessed as an armed job, except one part of it. An FA1 has been submitted, assessed and authorised. This have been put forward to tac advice (which is a risk assessment in all but name I'd say)

FYI,

Just spoken to Alison, she was of the mind that the criminality under ANKAA is different to the criminality under UTARA therefore needs a new DSA etc to cover that.

I've said its covered by 'associated firearms offences' as per the wording of the authority.

She's going to run it by Chris Davies but she was backing down having read the authority.

I'll let you know if there's any development but I think it's sorted.

Hi gary,

The only thing to cover is the dsa which as said is for the normal crime job - feel this is a different purpose and needs to be authorised and risks assessed.

Back in in the morning if you need to discuss further.

Thanks,

Alison

Alison,

I spoke with the DI today.

Can I assume this is all sorted now?

**Subject:** UTARA Friday 11th Dec

Hi Gary,

Just tried to call you to discuss as Ryan is off today and I just wanted to talk about the plans for later this week.

Some things need a discussion such as the current directed surveillance authority is for the drug trafficking offences being committed by that OCN and another would be needed for this specific intelligence including a suitable risk assessment.

Can we also have a copy of the firearms authority please.

Secondly the on-call DI for this week DI Chris Davies (DPA 944) would be keen to have all teams briefed together on for the job on the day even if it does mean bringing the teams on earlier. He is also keen to have an intel update from you?

If the teams briefed together on the morning of the job then this might negate a pre-brief the day before and the further abstractions from surveillance deployments?

I am going to need all of these things covered off urgently so that we can sort the weeks work out if you wouldn't mind giving me or DI Davies a call please.

Many thanks,

Alison
