

- Precision adjustments for windage and elevation. Top of protective caps fits into holes on adjustment screws – no other tool required.
- Use as a stand-alone sight or “piggybacked” on larger magnifying, thermal, or night vision optics.

#### 2.10 Benefits of the Aimpoint Microdot Sight:

- Small with low profile
- 5 year continuous use battery life
- IR compatible
- Easy to zero with no tools / retains zero
- Negligible fall of shot differential from point of zero
- Iron sights can be seen and used

#### 2.11 Streamlight TLR-2 HL G

The Streamlight TLR-2 HL G is a small compact unit that combines a green Laser and high intensity torch and was purchased in 2015 to replace the Laser Max UNI-G Green Pulsing Laser and Sure Fire Scout Light.

#### 2.12 The benefits of the Streamlight TLR-2HL G are as follows:

- No fall of shot differential from point of zero.
- Ability to shoot accurately without bringing weapon to eye, enhancing respirator shooting capability with increased peripheral vision as a result.
- Accurate shooting from behind cover.
- High impact, chemically resistant engineering polymer laser housing.
- Made from machined aircraft aluminium.
